

Cell128 — The respect for everyone's privacy, in everyone's spaces. The Dorigo design seating system, featuring the original extra-height back, designed for discretion and relaxation. Cell128 offers private moments of solitude, precious for a pause or an unexpected work session. An elegant coffee table, with rotating top and support, adds to the comfort of the decor, with possible customisation with pop-up USB charger.

 THE SHAPE OF COMFORT

Cell128 is the soft seating system designed to create personalized waiting and informal meeting areas within open plan spaces.

The high back version in fact, thanks to its “enveloping” lines allows a special sound – proofing that helps creating a comfortable and private space where you can relax or work comfortably.

All the Cell128 collection is made with innovative materials that give shape to products comfortable, durable and with a contemporary design. Internal structure in steel entirely covered with CFC-free shape-retaining, flexible, moulded polyurethane. The seat cushion is in CFC-free shaped flexible polyurethane foam with a has a 200 mm thick and 18 mm thick wooden seat interior.

 FUNCTIONAL AESTHETIC

To give more functionality to Cell128, it may be equipped with an elegant revolving table.

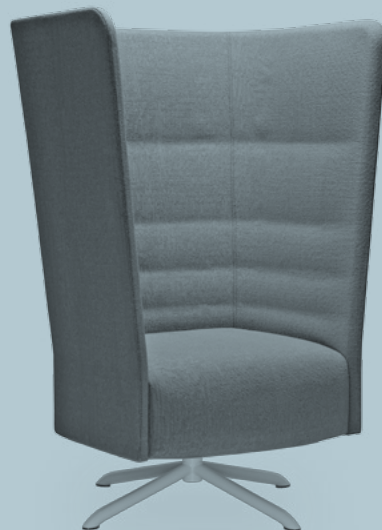

In the high back versions the revolving table is assembled in such a way that one can easily bring it to the back part of the chair allowing a useful supporting plane.

An electric power system is also available for electric outlets and any other device.

 ENDLESS POSSIBILITIES

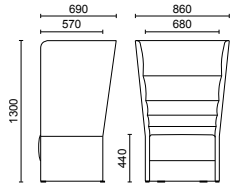

This seating collection with countless finishes, upholsteries and different bases in steel or wood offers the freedom to personalize their areas by choosing the best options.

Three different cushions with removable cover are available to complete Cell128.

PCON.PLANNER

It will be possible to configurate our model Cell128 by using pCon.planner program for the design of 2D an 3D environment.

pCon.planner allows to design working solutions in a fast and intuitive way, creating "realistic" images with advanced features, with a considerable saving of time and resources.

It is easy to start using pCon.planner: after downloading the software in the proper page, it is possible to download pCon. catalog, the practical online catalogue of products ready to be set up according to anyone's need, and then include the products in the projects.

For more information on the use of pCon. planner and the access to the products of the SitLand's catalogues, please contact com@sitland.com

WARRANTY

Cell128 has 5 years warranty. For any further detail, please contact Sitland's customer service at service@sitland.com
